Press Release

Grow Safe Provides Medical Insurance to Employees, Trainees

Karachi: Grow Safe – a leading health, safety and environment (HSE) organization – has distributed Family Health Takaful Cards to permanent employees and trainees, setting a new benchmark in inclusive employee healthcare within the private sector.

GSPL extended health coverage to trainee engineers (TEs), management trainee officers (MTOs) and trainee officers (TOs). The comprehensive initiative was launched in collaboration with Jubilee Life Insurance, with the primary focus on employee welfare and workplace wellbeing.

It's also pertinent to mention here that the organization has already been providing tele-clinic facility to all employees through a qualified family physician, a Registered Medical Practitioner (RMP).

Speaking at the ceremony, held at the company head office in Karachi, Chief Guest Dr. Iqbal Saeed Khan, senior civil servant (BPS-20), appreciated the initiative of prioritizing healthcare for workforce, including trainees.

Dr. Khan – who has an illustrious academic record and served several key official positions, notably his role as Sindh Environment Protection Agency's DG – emphasized institutional responsibility towards employee health and social protection, particularly in today's challenging economic and environmental conditions.

"At Grow Safe, our people come first," the management stated, adding that it remains committed to fostering a secure, healthy and supportive work environment for all workforce.

Moreover, representatives of Jubilee Insurance briefed the participants on the scope, benefits, and long-term security provided by the takaful program.

Later, the chief guest distributed the cards among the employees and spoke one-to-one with them. Dr. Owais Iqbal – who has a Ph.D. in Environment from the Institute of Environment Studies, University of Karachi – attended the ceremony as the honorary guest.

Thankfully,

Hassan Siddiqui
