### Press Release

Engineers' international-standard competency

### **Grow Safe, Pakistan Engineers Forum Sign MoU**

KARACHI: Grow Safe – Pakistan's leading Occupational Safety, Health (OSH), fire safety, and technical consultancy organization – has entered a five-year strategic partnership with Pakistan Engineers Forum (PEF) to strengthen professional development and technical competencies of engineers across Pakistan.

Under the MoU, the two sides will jointly design and deliver professional development programs covering OSH, fire safety, environmental management, technical competency enhancement, leadership, and soft skills.

The agreement was signed between Mr. Umer Farooq Memon, General Secretary of the Pakistan Engineers Forum, and Mr. Usman Dawood Barry, General Manager Projects at Grow Safe, at the latter's head office in Karachi.

Speaking on the occasion, PEF representatives appreciated Grow Safe's significant contributions toward human capital development and acknowledged their continued efforts in promoting industrial safety, technical excellence, regulatory compliance, and international best practices across Pakistan's industrial sector.

Mr. Saad Abdul Wahab, CEO Grow Safe, deemed developing competent professionals essential for enhancing industrial competitiveness and ensuring sustainable economic growth. He emphasized that collaboration between professional bodies and the industry is critical for bridging the gap between academic knowledge and practical workplace requirements.

The collaboration reflects the shared commitment to equip engineering professionals with internationally recognized knowledge and practical competencies that meet the evolving requirements, while promoting a stronger culture of safety, innovation, and professional excellence across Pakistan's industries.

Thankfully,

Hassan Siddiqui  
Manager, Corporate Media
